Sale Illustration: Smart Saving Plus 5/3

Unit: MMK

Initial Sum Assured:	**10,000,000**
Mode of Premium:	**Annual**

Customer Age:	**35**
Modal Premium:	**9,670,000**

Policy Year	Annualized Premium	Death Benefit		Survival Benefits	Maturity Benefit
		Due to Natural	Due to Accident		
1	9,670,000	10,000,000	30,000,000	500,000	
2	9,670,000	20,000,000	40,000,000	1,000,000	
3	9,670,000	30,000,000	50,000,000	960,000	
4		30,000,000	50,000,000	1,460,000	
5		30,000,000	50,000,000		32,300,000
Total	**29,010,000**			**36,220,000**	

Total Benefit in excess of Total Premium Payment:	**7,210,000**

Total Benefit in excess of Total Premium Paid = 36,220,000 – 29,010,000 = 7,210,000

Insured will gain **7,210,000** Kyats from this policy.

It is more beneficial for customers to keep the policy until the end of the policy term to get maximized saving benefits.

The insured will get the personal income tax savings for this premium.

*Remark: Premium rate may vary according to the payment mode. **Table A** mentioned above is just for illustration purposes.
